

KRISHNA KUMAR K. NAICKER

Full-Stack AI Engineer

Pune, India | +91 9172631857 | krishnanaicker.dev
krishnanaicker2005@gmail.com | [LinkedIn](#) | [GitHub](#)

Full-Stack AI Engineer with hands-on experience building agent orchestration platforms, retrieval systems, and production web services. Owns features end to end—from workflow design and APIs to data pipelines, integrations, evaluation, and deployment—using Python, TypeScript, FastAPI, React, LangGraph, PostgreSQL and Docker.

EXPERIENCE

AllCognix AI | Full-Stack Engineer Intern

Jan 2026 – Present

Product Lead – Orkus · Agent-building and orchestration platform

- Leading **Orkus**, a platform for designing, configuring, and orchestrating AI agents; translating product requirements into workflow primitives, backend services, integrations, and user-facing tooling.
- Owning features across architecture, implementation, debugging, and release, with emphasis on reusable agent workflows, reliable execution, and extensible platform contracts.

Omnineura AI Technologies | GenAI Full-Stack Engineer Intern

Nov 2025 – Jan 2026

Bengaluru, India · Remote

- Architected full-stack LLM applications and autonomous agents with **LangGraph** and **CrewAI** for multi-step healthcare workflows, integrating model calls, stateful routing, validation, and failure handling.
- Built backend APIs, data flows, and responsive interfaces for enterprise AI prototypes while maintaining clear service boundaries and production-oriented error handling.

FEATURED PROJECTS

[AssetFlow](#) | Enterprise Asset & Resource Management

July 2026

- Built a TypeScript/PostgreSQL ERP module with RBAC, atomic asset transfers, overlap-safe bookings, approval-gated maintenance, audit cycles, notifications, and activity logs; enforced business rules in the Express/Prisma service layer and surfaced them through a React interface.

[Support Triage Agent](#) | Safety-First RAG Pipeline

May 2026

- Built a five-stage CLI agent that classifies safety **before retrieval**, isolates ChromaDB search by domain, and generates corpus-grounded responses with deterministic structured outputs; indexed **773 source files into 1,962 chunks** using local MiniLM embeddings and human escalation.

[TraceLink](#) | Offline Manufacturing Traceability

Apr 2026

- Engineered a zero-dependency, offline-first trace engine linking material lots, production batches, QC inspections, dispatch orders, and OEM complaints; added confidence-scored recovery for **678 missing batch IDs** and measured a **0.3 ms** trace lookup.

[CareFlow](#) & [HealBERT](#) | Agentic Healthcare & Self-Healing ML

Nov 2025

- Fine-tuned DistilBERT with LoRA (**approximately 2% of parameters trainable**) and built a LangGraph confidence-routed fallback pipeline for sarcasm and edge cases; separately orchestrated four healthcare agents for intake, emergency-risk classification, specialist routing, and patient-facing care plans.

[HealthEase](#) | AI Healthcare Platform

Apr 2025

- Shipped a Streamlit/MongoDB application with authenticated role-based access, PDF research summarization, symptom analysis, longitudinal wellness tracking, and persistent user history.

TECHNICAL SKILLS

- Languages** Python, JavaScript, C++, SQL
- AI & ML** PyTorch, TensorFlow, Transformers, LangChain, LangGraph, CrewAI, RAG, LoRA, BERT
- Backend & Data** FastAPI, Node.js, Express, REST APIs, Celery, PostgreSQL, MongoDB, MySQL, Redis, Pinecone
- Frontend & Infrastructure** React, Next.js, Streamlit, Tailwind CSS, Docker, Git

EDUCATION

B.E. Artificial Intelligence and Data Science | P.E.S. Modern College of Engineering (SPPU)

Aug 2023 – Jun 2027

Pune, India · CGPA: 9.36 (Semesters 1–6)

ACHIEVEMENTS

- Finalist**, Odoo Hackathon 2026 - **Ranked 85th** among 857 teams, selected from 20,000+ registrations.
- Ranked 158 out of 1,349 participants** in HackerRank Orchestrate.
- Selected among the **Top 20 teams** at the MCCIA AI Hackathon 2026.
- Won **3rd place** at the Pragyantira National-Level Hackathon among 130+ teams as Team Lead.
- Achieved **National Rank 236** in HackRx 6.0 by Bajaj Finserv.
